PROFESSIONAL SUMMARY

MERN Stack & WordPress Developer with 12+ months of internship experience building production-ready web applications and maintaining live WordPress websites. Proficient in JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, and WordPress development/maintenance. Experienced in RESTful API design, real-time systems with Socket.io, JWT authentication, RBAC, and database modelling. Eager to contribute to a product-driven engineering team as a fresher.

TECHNICAL SKILLS

Languages & Frontend: JavaScript (ES6+), React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, PHP
CMS & Web: WordPress (Development & Maintenance), Elementor, WooCommerce, Theme & Plugin Customization, cPanel

Backend & APIs: Node.js, Express.js, Laravel, RESTful APIs, Socket.io, Middleware, JWT, RBAC

Databases: MongoDB (Mongoose), MySQL, PostgreSQL

Tools & DevOps: Git, GitHub, Docker, Nginx, AWS EC2, Postman, Redash, npm, VS Code

PROFESSIONAL EXPERIENCE

WordPress Developer Intern · Connect-Ignite, Noida

Jan 2026 – Present

- Maintain and develop client WordPress websites, ensuring uptime, performance, and security.
- Install, configure, and update themes/plugins; customize layouts using Elementor and WooCommerce.
- Perform content updates, bug fixes, and performance optimization across multiple live websites.
- Manage backups, security monitoring, and troubleshooting for WordPress-based client sites.

Backend Developer Intern · Avasar Works Pvt. Ltd., Noida

June 2025 – Dec 2025

- Built production Laravel API modules using MVC architecture, Eloquent ORM, and RBAC middleware.
- Implemented JWT and session-based authentication; optimised SQL queries and created Redash dashboards.
- Developed admin panels with DataTables, Excel export, and role-based access for internal teams.

MERN Stack Developer Intern · NCA IT Solution, Noida

April 2025 – June 2025

- Developed full-stack features with React.js, Node.js, Express.js, and MongoDB for 2+ client projects.

- Designed and integrated RESTful APIs; implemented JWT-protected routes and deployed to staging environments.

PROJECTS

Real-Time Chat Application | *Socket.io · Node.js · React.js · MongoDB*

- Built a real-time messaging app using Socket.io for instant bi-directional communication between users.
- Implemented live online/offline status indicators and typing indicators for a dynamic chat experience.
- Added in-chat image sharing and real-time notifications to alert users of new messages and activity.

E-Commerce Platform | *React · Node.js · Express.js · MongoDB · JWT*

- Designed 15+ REST API endpoints for users, products, and orders with auth middleware and error handling.
- Built admin dashboard with product and order management; implemented JWT-based role-protected routes.

Job Search Platform | *MERN Stack · RBAC · Mongoose*

- Built APIs for job listings and applications with role-based access control for candidates and recruiters.
- Modelled MongoDB schemas with Mongoose for efficient querying across jobs and application data.

Task Management Platform | *Node.js · Express.js · MongoDB · JWT*

- Developed CRUD REST API with JWT auth, input validation, and centralised Express error handling.

LMS & Offer Management Panel | *Laravel · MySQL · Redash*

- Built course platform with student/admin dashboards, enrollment tracking, and performance-optimised queries.

EDUCATION

Bachelor of Computer Applications (BCA) — Noida College of Physical Education | 2022 – 2025

CERTIFICATIONS

- MERN Full Stack Development — Ducat (Completed: May 2024)
- MERN Stack Internship Certificate — NCA IT Solution (April 2025 – June 2025)
- Backend Engineering Internship Completion — Avasar Works Pvt. Ltd. (June 2025 – January 2026)
